We arrived at 11 am on both the days. Event ran according to the schedule from time to time. Each workshop had a different time interval hence students wasn't able to miss the keynote speakers talks. Any Workshop's duration was about 2 hrs. The way of organizing the event by BITS student volunteers was the most impressive thing which we saw.

Science exhibits, Project expos were displayed at the ground floor in the auditorium block of main campus throughout 2 days. All the students had their lunch and snacks at Dining halls and cafeteria. On the first day It ended about 5:00 pm. Hostlers boarded the bus and left. In case of DAY SCHOLARs students who meant their own transport left where as others were taken to secunderabad with care by club members and made them board the busses according to their destinations.

On the second day left over workshops and scheduled programs were conducted, competitions based on technology as well as fun were also held. Students even took part in some of them.
